Software Engineer

- Software Engineer with 5+ years of front-end expertise in React and TypeScript, focused on building scalable, secure applications.
- Optimized 8 company websites for mobile responsiveness and SEO, increasing organic traffic by 12% and improving user engagement.
- Integrated Stripe into WECO Hospitality's checkout process, enhancing mobile payment security and transaction reliability.

WORK EXPERIENCE

BHC ISS • Charlotte, NC | Remote   Oct 2023 - Present
Contract Frontend Developer / Designer

- Maintained 8 company sites, optimizing for touch devices and SEO, resulting in a 12% increase in organic traffic and user satisfaction.
- Liaised IT and Business Development teams in building two eCommerce sites and a service site from the ground up in 1 year and migrated an eCommerce site using best practices.
- Trained 4 designers on best practices for HTML and CSS, resulting in a reduction in front-end errors across product pages, email templates, and marketing materials.

The Omega Agency LLC • Raleigh, NC | Remote   Feb 2024 - Oct 2024
Contract Software Engineer

- Executed development of a social media platform in three weeks, onboarding 50% of attendees at launch; fostering connectivity among 100+ female entrepreneurs in diverse sectors.
- Developed a responsive pricing calculator that provided immediate estimates based on user input; improving sales team efficiency, allowing reps to handle more inquiries weekly.
- Collaborated to engineer an event gamification mobile app in six months giving hosts insight into user engagement metrics otherwise inaccessible except by survey.
- Debugged a critical issue with the QR code generator affecting 5 organizations, leading to the successful creation of over 100 event badges, enhancing overall user satisfaction.

WECO Hospitality • Acton, MA | Remote   Jul 2022 - Aug 2023
Software Engineer

- Collaborated with a cross-functional team to migrate an online app from WordPress to React in 3 months, improving security and scalability, and decreasing page load time by 7%.
- Introduced efficient backend API data handling processes for food ordering using Axios, leading to a 15% reduction in data transfer errors and a better overall user experience.
- Championed the setup of Google Analytics, facilitating the tracking of user interactions in app; insights gained enabled data-driven decisions that increased overall performance.

Brooks Equipment / BHC ISS • Charlotte, NC | On-SIte / Hybrid   Feb 2019 - Jul 2022
Web Developer & Graphic Designer
- Configured and integrated Google Marketing Platform tools for eCommerce sites, advancing campaign effectiveness and providing valuable insights for future marketing strategies.
- Implemented in-code comment documentation and README files for onboarding new developers to web apps and features, resulting in improved training efficiency within one week.

Bradley Co. • Southfield, MI   May 2017 - May 2018
Graphic Designer
- Managed up to 20 projects concurrently with strict 24-hour deadlines; crafted a detailed project timeline that ensured each task received appropriate focus.

Applet Social (Formerly I Am Creative LLC) • Detroit, MI   Sep 2014 - May 2018
Project Manager
- Implemented a communication plan for two clients, leading to a $1,200 per month revenue boost and strengthening client relationships through transformed service delivery.
